## The future of surface protection

NORDIC  
CHEM

### Nordic Chem main benefits:

-  Enhances aesthetic appeal
-  Self-cleaning effect
-  Protects substrates
-  Increases lifetime of equipment and assets
-  Labour cost saving solution
-  Increases hygiene standards & provides antimicrobial protection 24/7
-  Reduces water and chemicals consumption
-  Reduces the site's carbon footprint

*The ultimate cleaning aid for commercial cleaners. Streamlines cleaning regime, increases standards and reduces carbon footprint.*

Experience the next level of surface protection with Nordic Chem 2.0. Our advanced coating safeguards every type of surface in your commercial building, significantly reducing cleaning efforts and enhancing aesthetic and hygiene standards, while also contributing to a greener environment.

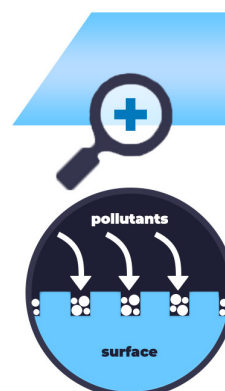

By enhancing the efficiency of your maintenance routines, Nordic Chem 2.0 helps in boosting your profit margins and elevating customer satisfaction. This innovative solution is a game-changer for commercial properties aiming to maintain impeccable cleanliness.

### Who we are

Through over 25 years of experience in the coating's market, Nordic Chem has used its extensive knowledge in the chemical field to develop coatings that will revolutionise the cleaning industry.

*We are at the forefront of the smart cleaning era.*

#### UNCOATED

**Dirt and contaminants can penetrate the pores of the substrate.**

#### COATED

**Dirt and contaminants can't stick to the surface and damage the substrate.**

# Nordic Chem

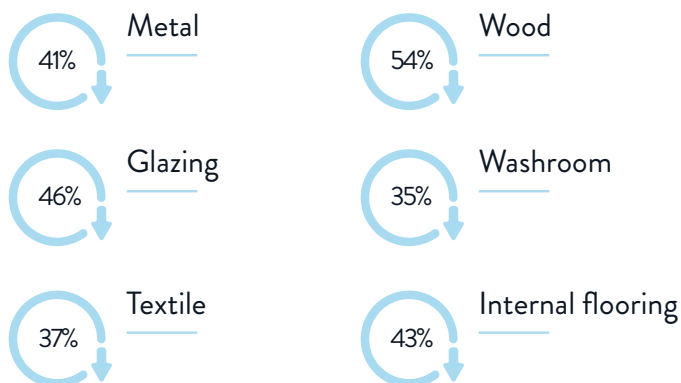

## The future of surface protection

### DAY-TO-DAY

#### AVERAGE LABOUR SAVINGS

Average savings on the day-to-day cleaning regime of different surfaces when using Nordic Chem coating:

#### **Increased standards**

Increases the aesthetic appeal of every surface while keeping them cleaner for longer to increase the site's standards.

#### **Self-cleaning effect & cost saving solution**

Significantly reduces cleaning labour providing savings while increasing standards.

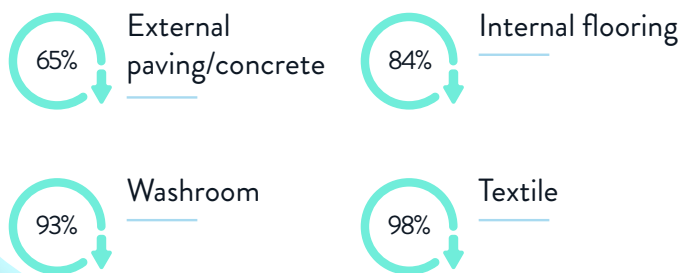

#### **Water & chemicals use reduction**

Reduction in water and chemicals used for surface cleaning and maintenance.

### PERIODICS

#### AVERAGE LABOUR SAVINGS

Average savings on the deep cleaning regime of different surfaces when using Nordic Chem coating:

#### **Extend replacement cycle**

Increases the lifespan of all interior assets such as furniture and equipment, reducing replacement and refurbishment costs.

#### **24/7 hygienic seal**

A permanent protective barrier inhospitable for microorganisms, mould and limescale.

#### **Visitors and employees well-being**

Cleaner, brighter and visually appealing surfaces promote a sense of wellbeing to guests and employees.
